ABOUT BELARAROX LIMITED (ASX: BRX)

Belararox is a mineral explorer focused on securing and developing resources to meet the surge in demand from the technology, battery, and renewable energy markets. Our projects currently include the potential for copper, gold, silver and zinc resources.

The Company's portfolio includes the TMT Project in Argentina, targeting copper, gold and other metals, a recent acquisition in Botswana's Kalahari Copper Belt, the Belara project in New South Wales, focused on zinc and copper, and the Bullabulling project (under Option to Minerals 260) in Western Australia, targeting gold.

PROJECTS

Situated within Argentina's San Juan Province, the Toro-Malambo-Tambo (TMT) project occupies an unexplored area between the prolifically mineralised El Indio and Maricunga Metallogenic Belts.

Belararox has already successfully identified numerous promising targets within the TMT project. These targets will undergo thorough exploration as part of an extensive program led by an experienced Belararox team currently established in Argentina.
